What You Need to Know About Second Citizenship in the Caribbean

The Caribbean: The Ideal Investment Haven

A few short years ago, finance industry consultants were touting the wonders of investing in the Eurozone. This has changed, especially after the UK left the European Union. The BREXIT incident, combined with a refugee crisis and an unpredictable political situation, has many investors looking elsewhere for safe havens to protect and invest their wealth.

As Europe lost some stability, we have seen positive developments in Caribbean nations. Many wealthy people from Europe and elsewhere have been investing in Antigua, Barbuda, Granada and Dominica as well as Saint Kitts and Nevis. The investment citizenship opportunities and the beautiful beaches and climate make these nations attractive places to invest.

Second Citizenship in the Caribbean:

Helps you diversify and protect your assets. You don't have to put all your eggs in one basket, especially an unstable one. The Caribbean is relatively stable.

Provides visa-free travel worldwide. A passport from one of these countries will open up new hassle-free travel opportunities for you and your family.

Opens up new and better business opportunities.

Is a valuable tax planning tool. Compared to the cost of citizenship, you can save many times the cost in taxes.

You may have heard all this before. These perks are just a drop in the bucket. There are plenty more that you may not have heard.

More Reasons to Choose Caribbean Citizenship Programmes

They are the most affordable citizenship programmes. The entry level cost of the Dominica Citizenship by Investment Programme is US \$100,000 with the average cost around US \$250,000. That opens Caribbean citizenship to those individuals who are not ready to invest in more expensive European CIPs.

Fast Processing. The usual timeline for the Caribbean citizenship processing is 2-4 months.

100% legal. Caribbean citizenship programmes are run by the Governments of the countries and have a very strict due diligence procedure to guarantee the security of the programmes.

Ease of the programmes. Investors may choose whether to make a minimum, refundable government donation or invest in approved real estate/businesses.

Guaranteed ROI. These programs provide valuable real estate investment opportunities which guarantee ROI and rental returns to the investors.

Great beaches. As a citizen, you get to enjoy some of the finest tourist destinations in the world while having all the rights and privileges that other citizens have.
